## How we work

Internationally renowned leadership coaches Hetty Einzig and Liz Rivers are passionate about helping women like you take your rightful place as a leader at work.

We use a range of techniques that help you access the power of your mind, body and imagination. Over two days, participants learn how to claim space, find their voice and lead by inspiring and empowering others. Day one is focused on how to survive and thrive in the workplace; day two looks at changing the 'rules of the game' to get even better results.

Our approach is aimed at delivering maximum impact in a short space of time. We also provide support before and after the workshops, for results that endure.
